Election/Restriction

1. Applicant's election without traverse of Group I, drawn to claims 1 through 12, in Paper No. 7 is acknowledged. No claims remain withdrawn from consideration, at this time, however, since abovementioned response by applicant requested cancellation of claims 13 through 19 drawn to the non-elected Group II.

2. This application contains claims directed to the following patentably distinct species of the claimed invention: the first species or the embodiment of Figure 2; the second species or the embodiment of Figures 3a and 3b; the third species or the embodiment of Figures 4a and 4b; the fourth species or the embodiment of Figure 6; the fifth species or the embodiment of Figure 7a; the sixth species or the embodiment of Figure 7b; the seventh species or the embodiment of Figure 9; the eighth species or the embodiment of Figure 10; the ninth species or the embodiment of Figure 11; and, the tenth species or the embodiment of Figures 12 and 12a.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3743

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ljiljana (Lil) V. Ciric, whose telephone number is (703) 308-3925. While she works a flexible schedule that varies from day to day and from week to week, Examiner Ciric may generally be reached at the Office during the work week between the hours of 10 a.m. and 6 p.m. ET.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Henry Bennett, can be reached on (703) 308-0101. The fax phone number is (703) 305-3463.
